*Assistant Professor of
Biomedical Engineering,
Director*

BIG IDEAs Lab, Duke
University

“ Digital tools give us a unique opportunity to detect early warning signs of events like OUD relapse and intervene before it happens. By harnessing continuous data from wearables and smartphones, we hope to be able to support people with OUD in real time, when and where they can benefit most. ”

Developing a Digitally Derived Tool *to*
Prevent Relapse in Opioid Use Disorder
